46 industrial use; and

47 (ii) is:

48 (A) a public entity;

49 (B) a water corporation, as defined in Section [54-2-1](#), that is regulated by the Public  
50 Service Commission;

55 (II) whose voting members:

56 (Aa) own a share in the community water system;

57 (Bb) receive water from the community water system in proportion to the member's  
58 share in the community water system; and

59 (Cc) pay the rate set by the community water system based on the water the member  
60 receives; or

61 (D) a water users association:

62 (I) in which one or more public entities own at least 70% of the outstanding shares; and

63 (II) that is a local sponsor of a water project constructed by the United States Bureau of  
64 Reclamation.

65 (c) "Shareholder" is as defined in Section 73-3-3.5.

66 (d) "Water company" is as defined in Section 73-3-3.5.

67 (e) "Water supply entity" means an entity that supplies water as a utility service or for  
68 irrigation purposes and is also:

69 (i) a municipality, water conservancy district, metropolitan water district, irrigation  
70 district, or other public agency;

71 (ii) a water company regulated by the Public Service Commission; or

72 (iii) any other owner of a community water system.

73 (2) (a) Except as provided in Subsection (2)(b) or (e), when an appropriator or the  
74 appropriator's successor in interest abandons or ceases to use all or a portion of a water right  
75 for a period of seven years, the water right or the unused portion of that water right is subject to  
76 forfeiture in accordance with Subsection (2)(c).

77 (b) (i) An appropriator or the appropriator's successor in interest may file an  
78 application for nonuse with the state engineer.

79 (ii) If a person described in Subsection (2)(b)(i) files and receives approval on a nonuse  
80 application, nonuse of the water right subject to the application is not counted toward a  
81 seven-year period described in Subsection (2)(a) during the period of time beginning on the day  
82 on which the person files the application and ending on the day on which the application  
83 expires without being renewed.

84 (iii) If a person described in Subsection (2)(b)(i) files and receives approval on  
85 successive, overlapping nonuse applications, nonuse of the water right subject to the  
86 applications is not counted toward a seven-year period described in Subsection (2)(a) during  
87 the period of time beginning on the day on which the person files the first application and

88 ending on the day on which the last application expires without being renewed.

89 (iv) Approval of a nonuse application does not protect a water right that is already  
90 subject to forfeiture under Subsection (2)(a) for full or partial nonuse of the water right.

91 (v) A nonuse application may be filed on all or a portion of the water right, including  
92 water rights held by a water company.

93 (vi) After giving written notice to the water company, a shareholder may file a nonuse  
94 application with the state engineer on the water represented by the stock.

95 (c) (i) Except as provided in Subsection (2)(c)(ii), a water right or a portion of the water  
96 right may not be forfeited unless a judicial action to declare the right forfeited is commenced  
97 within 15 years from the end of the latest period of nonuse of at least seven years.

98 (ii) (A) The state engineer, in a proposed determination of rights prepared in  
99 accordance with Section 73-4-11, may not assert that a water right was forfeited unless a period  
100 of nonuse of seven years ends or occurs during the 15 years immediately preceding the day on  
101 which the state engineer files the proposed determination of rights with the court.

102 (B) After the day on which a proposed determination of rights is filed with the court a  
103 person may not assert that a water right subject to that determination was forfeited during the  
104 15-year period described in Subsection (2)(c)(ii)(A), unless the state engineer asserts forfeiture  
105 in the proposed determination, or a person makes, in accordance with Section 73-4-11, an  
106 objection to the proposed determination that asserts forfeiture.

107 (iii) A water right, found to be valid in a decree entered in an action for general  
108 determination of rights under Chapter 4, Determination of Water Rights, is subject to a claim  
109 of forfeiture based on a seven-year period of nonuse that begins after the day on which the state  
110 engineer filed the related proposed determination of rights with the court, unless the decree  
111 provides otherwise.

112 (iv) If in a judicial action a court declares a water right forfeited, on the date on which  
113 the water right is forfeited:

114 (A) the right to use the water reverts to the public; and

115 (B) the water made available by the forfeiture:

116 (I) first, satisfies other water rights in the hydrologic system in order of priority date;

117 and

118 (II) second, may be appropriated as provided in this title.

- 119 (d) [~~This~~] Except as provided in Subsection (2)(e), this section applies whether the  
120 unused or abandoned water or a portion of the water is:
- 121 (i) permitted to run to waste; or
  - 122 (ii) used by others without right with the knowledge of the water right holder.
- 123 (e) This section does not apply to:
- 124 (i) the use of water according to a lease or other agreement with the appropriator or the  
125 appropriator's successor in interest;
  - 126 (ii) a water right if its place of use is contracted under an approved state agreement or  
127 federal conservation fallowing program;
  - 128 [~~(iii) those periods of time when a surface water or groundwater source fails to yield  
129 sufficient water to satisfy the water right;~~]
  - 130 (iii) a water right during a period of time when a surface water source or groundwater  
131 source fails to yield sufficient water to satisfy the water right;
  - 132 (iv) a water right when water is unavailable because of the water right's priority date;
  - 133 (v) a water right to store water in a surface reservoir or an aquifer, in accordance with  
134 Title 73, Chapter 3b, Groundwater Recharge and Recovery Act, if:
    - 135 (A) the water is stored for present or future use; or
    - 136 (B) storage is limited by a safety, regulatory, or engineering restraint that the  
137 appropriator or the appropriator's successor in interest cannot reasonably correct;
  - 138 (vi) a water right if a water user has beneficially used substantially all of the water right  
139 within a seven-year period, provided that this exemption does not apply to the adjudication of a  
140 water right in a general determination of water rights under Chapter 4, Determination of Water  
141 Rights;
  - 142 (vii) except as provided by Subsection (2)(g), a water right:
    - 143 (A) (I) owned by a public water supplier;
    - 144 (II) represented by a public water supplier's ownership interest in a water company; or
    - 145 (III) to which a public water supplier owns the right of use; and
    - 146 (B) conserved or held for the reasonable future water requirement of the public, which  
147 is determined according to Subsection (2)(f);
  - 148 (viii) a supplemental water right during a period of time when another water right  
149 available to the appropriator or the appropriator's successor in interest provides sufficient water

150 so as to not require use of the supplemental water right; or

151 (ix) a water right subject to an approved change application where the applicant is  
152 diligently pursuing certification.

153 (f) (i) The reasonable future water requirement of the public is the amount of water  
154 needed in the next 40 years by the persons within the public water supplier's [~~projected~~]  
155 reasonably anticipated service area based on [~~projected~~] reasonably anticipated population  
156 growth or other water use demand.

157 (ii) For purposes of Subsection (2)(f)(i), a community water system's projected or  
158 reasonably anticipated service area:

159 (A) is the area served by the community water system's distribution facilities; and

160 (B) expands as the community water system expands the distribution facilities in  
161 accordance with Title 19, Chapter 4, Safe Drinking Water Act.

162 (g) For a water right acquired by a public water supplier on or after May 5, 2008,  
163 Subsection (2)(e)(vii) applies if:

164 (i) the public water supplier submits a change application under Section 73-3-3; and

165 (ii) the state engineer approves the change application.

166 (3) (a) The state engineer shall furnish a nonuse application form requiring the  
167 following information:

170 diversion, place of use, and priority;

171 (iii) the quantity of water;

172 (iv) the period of use;

173 (v) the extension of time applied for;

174 (vi) a statement of the reason for the nonuse of the water; and

175 (vii) any other information that the state engineer requires.

176 (b) (i) Upon receipt of the application, the state engineer shall publish a notice of the  
177 application once a week for two successive weeks:

178 (A) in a newspaper of general circulation in the county in which the source of the water  
179 supply is located and where the water is to be used; and

180 (B) as required in Section 45-1-101.

181 (ii) The notice shall:

182 (A) state that an application has been made; and

183 (B) specify where the interested party may obtain additional information relating to the  
184 application.

185 (c) Any interested person may file a written protest with the state engineer against the  
186 granting of the application:

187 (i) within 20 days after the notice is published, if the adjudicative proceeding is  
188 informal; and

189 (ii) within 30 days after the notice is published, if the adjudicative proceeding is  
190 formal.

191 (d) In any proceedings to determine whether the nonuse application should be  
192 approved or rejected, the state engineer shall follow the procedures and requirements of Title  
193 63G, Chapter 4, Administrative Procedures Act.

194 (e) After further investigation, the state engineer may approve or reject the application.

195 (4) (a) The state engineer shall grant a nonuse application on all or a portion of a water  
196 right for a period of time not exceeding seven years if the applicant shows a reasonable cause  
197 for nonuse.

198 (b) A reasonable cause for nonuse includes:

199 (i) a demonstrable financial hardship or economic depression;

201 water right owner;

202 [~~(ii)~~] (iii) the initiation of water conservation or efficiency practices, or the operation of  
203 a groundwater recharge recovery program approved by the state engineer;

204 [~~(iii)~~] (iv) operation of legal proceedings;

206 by any water supply entity to meet the reasonable future requirements of the public;

207 [~~(v)~~] (vi) situations where, in the opinion of the state engineer, the nonuse would assist  
208 in implementing an existing, approved water management plan; or

209 [~~(vi)~~] (vii) the loss of capacity caused by deterioration of the water supply or delivery  
210 equipment if the applicant submits, with the application, a specific plan to resume full use of  
211 the water right by replacing, restoring, or improving the equipment.

212 (5) (a) Sixty days before the expiration of a nonuse application, the state engineer shall  
213 notify the applicant by mail or by any form of electronic communication through which receipt  
214 is verifiable, of the date when the nonuse application will expire.

420 commence an administrative proceeding by filing the change application with the state  
421 engineer in accordance with Section [73-3-3](#) and this section.

422 (b) The shareholder shall include as part of the change application filed with the state

425 (ii) an affidavit signed by the shareholder documenting the water company's failure to

427 (5) If a shareholder files a change application and the water company has consented to  
428 the proposed change under Subsection (3)(b)(i), or the water company has consented to the

429 proposed change subject to certain conditions under Subsection (3)(b)(ii) and the shareholder  
430 agrees to the conditions, the state engineer shall proceed to evaluate the change application in  
431 accordance with Subsection (13).

432 (6) If a shareholder files a change application and the water company has consented to  
433 the proposed change subject to certain conditions under Subsection (3)(b)(ii), but the  
434 shareholder disagrees with one or more conditions described in the response, or if the water  
435 company declines to consent under Subsection (3)(b)(iii), or if the water company elects to  
436 respond in a confidential communication as described in Subsection (3)(b)(iv), or if the water  
437 company fails to respond and the shareholder submits an affidavit of nonresponse under  
438 Subsection (4)(b)(ii), the state engineer shall:

439 (a) within 10 days after the day on which the state engineer receives the change  
440 application, give notice to the shareholder and the water company that both parties are required  
441 to engage in mediation before the state engineer will evaluate the change application; and

442 (b) provide written notice to the water company, if it failed to respond as required  
443 under Subsection (3)(b), that the water company shall respond to the proposed change  
444 application within 30 days after the day on which the water company receives the notice from  
445 the state engineer, and that the response shall conform with one of the options described in  
446 Subsection (3)(b).

447 (7) If the water company has not previously responded under Subsection (3)(b) and  
448 fails to respond to the notice under Subsection (6)(b), the state engineer may proceed with the  
449 administrative evaluation under Subsection (13).

450 (8) (a) If the water company has, in writing, declined to consent to the change  
451 application under Subsection (3)(b)(iii), or Subsection (6)(b), has consented on conditions  
452 unacceptable to the shareholder, or has elected to respond in a confidential communication as  
453 described in Subsection (3)(b)(iv), the parties shall jointly retain the service of a mediator and  
454 schedule a mediation on the change application filed by the shareholder and the response of the  
455 water company.

456 (b) If the shareholder and water company are unable to agree upon a mediator, the  
457 private property rights ombudsman shall serve in the capacity of mediator.

462 company issued a written response pursuant to Subsection (3)(a), or within 60 days of the day  
463 on which the water company issues a written response pursuant to Subsection (6)(b).

464 (e) If the water company elected to respond in a confidential communication as  
465 described in Subsection (3)(b)(iv), the water company shall provide the shareholder and the  
466 mediator a confidential statement of the reasons supporting any conditions on which its consent  
467 is based, or on which its decision to decline to consent is based, no less than 21 days before the  
468 day on which mediation is scheduled to occur.

469 (f) The shareholder and the mediator shall keep confidential any information in the  
470 statement described in Subsection (8)(e) identified as confidential.

471 (g) The time for completion of the mediation may be extended for up to 90 days if the  
472 parties agree and send written notice to the state engineer.

473 (h) If the water company gave written notice under Subsection (3)(b)(iv) of its election  
474 to respond to the shareholder's change application in a confidential communication before  
475 mediation, but then failed to respond as required in Subsection (8)(e) within the time specified,  
476 or within the time allowed under any agreed extension, the water company shall be considered  
477 to have consented to the change application.

478 (i) Within five days after the day on which the final day of mediation occurs, the  
479 mediator shall send a written statement to the state engineer, with a copy provided to each  
480 party, advising whether the mediation resulted in an agreement between the parties.

481 (9) If a shareholder and a water company come to an agreement in a mediation  
482 conducted under Subsection (8), the state engineer shall proceed to evaluate the change  
483 application in accordance with Subsection (13).

484 (10) If the parties do not reach an agreement through mediation and a mediator's  
485 statement, as described in Subsection (8)(i), is not received within 10 days following the time  
486 allowed for mediation, either party may send written notice to the other and to the state  
487 engineer that the parties are not in agreement regarding the proposed change application.

488 (11) Within 60 days of the day on which the state engineer receives the written  
489 statement from the mediator under Subsection (8)(i), or the written notice from a party under  
490 Subsection (10), that the parties are not in agreement regarding the proposed change

491 application, the shareholder or the water company may file an action in district court to resolve  
492 legal issues not within the purview of the state engineer's evaluation under Subsection (13).

493 (12) If a court action is not timely filed under Subsection (11), or if an action is timely  
494 filed and subsequently resolved and the matter remanded to the state engineer, the state  
495 engineer shall move forward with the administrative proceeding under Subsection (13).

496 (13) (a) The state engineer shall evaluate a shareholder's change application in the same  
497 manner used to evaluate a change application submitted under Section 73-3-3, using:

498 (i) the criteria described in Section 73-3-8;

499 (ii) the considerations described in Subsection (3)(c), related specifically to shareholder  
500 applications; and

501 (iii) the water company's conditions in consenting to the shareholder's proposed change  
502 application.

503 (b) Nothing in this section limits the authority of the state engineer in evaluating and  
504 processing a change application, including the authority to require or allow a shareholder or  
505 water company to submit additional relevant information, if the state engineer finds an absence  
506 of prejudice and allows adequate time and opportunity for the other party to respond.

507 (c) The state engineer may not withhold approval of a change application under this  
508 section based on potential damage, liability, or impairment to the water company or its  
509 shareholders if the potential damage, liability, or impairment can be reasonably mitigated  
510 without cost to the water company.

511 (14) If the state engineer approves a shareholder's change application, the state  
512 engineer:

513 (a) may condition approval on payment of the water company's reasonable costs  
514 incurred in the transfer process and in making adjustments to the water company's diversion or  
515 delivery system that are necessitated by the approved change application; and

516 (b) for shares included in the approval, require that the shareholder requesting the  
517 change [must] be current on all water company assessments and [agree to]:

518 (i) continue to pay all reasonably applicable future assessments[~~,-except that the~~  
519 shareholder may choose to prepay any portion of the water company assessments attributable to  
520 an existing debt of the water company.], with credit given to the shareholder for cost savings to  
521 the company; or

522 ~~[(b) Other than prepaid assessments, the water company may require that the~~  
523 ~~shareholder continue to pay all applicable assessments.]~~

524 ~~[(6) If the water company approves the requested change, with or without conditions,~~  
525 ~~the change application may be filed with the state engineer, and must:]~~

526 ~~[(a) be signed on behalf of the water company; or]~~

527 ~~[(b) be accompanied by written authorization from the water company assenting to the~~  
528 ~~change.]~~

529 ~~[(7) (a) The state engineer may evaluate a change application authorized by a water~~  
530 ~~company under this section in the same manner and using the same criteria that he or she uses~~  
531 ~~to evaluate any other change application.]~~

532 ~~[(b) Nothing in this section shall limit the authority of the state engineer in evaluating~~  
533 ~~and processing any change application.]~~

534 ~~[(8) If an application authorized by a water company under this section is approved by~~  
535 ~~the state engineer, the shareholder may file requests for extensions of time to submit proof of~~  
536 ~~beneficial use under the change application without further permission of the water company.]~~

537 ~~[(9) (a) Change applications approved under this section are subject to all conditions~~  
538 ~~imposed by the water company and the state engineer.]~~

539 ~~[(b) If a shareholder fails to comply with all of the conditions imposed by the water~~  
540 ~~company, the water company may, after written notice to the shareholder and after allowing~~  
541 ~~reasonable time to remedy the failure, withdraw its approval of the application, and petition the~~  
542 ~~state engineer for an order canceling the change application.]~~

543 ~~[(c) The water company may not revoke its approval of the change application or seek~~  
544 ~~an order canceling the application if the conditions are substantially satisfied.]~~

545 ~~[(10) (a) The shareholder requesting the change shall have a cause of action, including~~  
546 ~~an award of actual damages incurred, against the water company if the water company:]~~

547 ~~[(i) unreasonably withholds approval of a requested change;]~~

548 ~~[(ii) imposes unreasonable conditions in its approval; or]~~

549 ~~[(iii) withdraws approval of a change application in a manner other than as provided in~~  
550 ~~Subsection (9).]~~

551 ~~[(b) The action referred to in Subsection (10)(a) shall be referred to mediation by the~~  
552 ~~court under Title 78B, Chapter 6, Part 2, Alternative Dispute Resolution Act, unless both~~

553 ~~parties decline mediation.]~~

554 ~~[(c) If mediation is declined, the prevailing party to the action shall be entitled to costs~~  
555 ~~and reasonable attorney fees.]~~

556 (ii) by mutual agreement only, and when the shares will rely upon a different diversion  
557 and delivery system, negotiate a buyout that includes a prorata share of the bonded  
558 indebtedness assignable to the shares, together with the capitalized value of anticipated future  
559 assessments for maintenance and operation that otherwise would have applied.

560 (15) A shareholder or a water company may obtain de novo judicial review of the state  
561 engineer's determination under Subsections (13) and (14) by filing an action in district court  
562 within 30 days after the day on which the state engineer makes a final determination in the  
563 adjudicative proceeding on the change application.

564 (16) If, after a proposed change has been approved and gone into effect, a shareholder  
565 fails to substantially comply with a condition described in Subsection (14)(a) or (b) and  
566 neglects to remedy the failure after written notice from the water company that allows the  
567 shareholder a reasonable opportunity to remedy the failure, that is not less than 90 days after  
568 the day on which the water company gives notice, the water company may:

569 (a) petition the state engineer to order a reversal of the change application approval; or  
570 (b) proceed under the remedies provided in Title 16, Chapter 4, Share Assessment Act.

571 (17) If a shareholder's change application is denied by the state engineer and the denial  
572 is upheld by the district court in a de novo action, the district court may award costs and  
573 reasonable attorney fees to the water company if the court finds that:

574 (a) the shareholder refused to accept conditions advanced by the water company for the  
575 water company to consent to the proposed change; and

576 (b) the conditions advanced by the water company for consenting to the shareholder's  
577 change were reasonable and necessary to protect the other shareholders.

578 (18) If a shareholder's change application is approved by the state engineer and upheld  
579 by a district court in a de novo action, the district court may award costs and reasonable  
580 attorney fees to the shareholder if the district court finds that the water company:

581 (a) unreasonably declined to consent to the proposed change; or

582 (b) conditioned its consent to the proposed change on unreasonable requirements.
