(Cc) pay the rate set by the community water system based on the water the member receives; or

(D) a water users association:

(I) in which one or more public entities own at least 70% of the outstanding shares; and

(II) that is a local sponsor of a water project constructed by the United States Bureau of Reclamation.

(c) "Shareholder" is as defined in Section 73-3-3.5.

(2) (a) Except as provided in Subsection (2)(b) or (e), when an appropriator or the appropriator's successor in interest abandons or ceases to use all or a portion of a water right for a period of seven years, the water right or the unused portion of that water right is subject to forfeiture in accordance with Subsection (2)(c).

(b) (i) An appropriator or the appropriator's successor in interest may file an application for nonuse with the state engineer.

(ii) If a person described in Subsection (2)(b)(i) files and receives approval on a nonuse application, nonuse of the water right subject to the application is not counted toward a seven-year period described in Subsection (2)(a) during the period of time beginning on the day

(iv) Approval of a nonuse application does not protect a water right that is already subject to forfeiture under Subsection (2)(a) for full or partial nonuse of the water right.

(v) A nonuse application may be filed on all or a portion of the water right, including water rights held by a water company.

(vi) After giving written notice to the water company, a shareholder may file a nonuse application with the state engineer on the water represented by the stock.

(B) After the day on which a proposed determination of rights is filed with the court a person may not assert that a water right subject to that determination was forfeited during the 15-year period described in Subsection (2)(c)(ii)(A), unless the state engineer asserts forfeiture in the proposed determination, or a person makes, in accordance with Section 73-4-11, an objection to the proposed determination that asserts forfeiture.

(iii) A water right, found to be valid in a decree entered in an action for general determination of rights under Chapter 4, Determination of Water Rights, is subject to a claim of forfeiture based on a seven-year period of nonuse that begins after the day on which the state engineer filed the related proposed determination of rights with the court, unless the decree provides otherwise.

(iv) If in a judicial action a court declares a water right forfeited, on the date on which

## HB0049S02 compared with HB0049S01
