LONG TITLE

General Description:

This bill modifies provisions relating to water rights used for watering livestock on public land and addresses the ability of a party to obtain a water right in the state under certain circumstances.

- ▶ states that no person or government entity may condition the issuance, renewal, amendment, or extension of any permit, approval, license, allotment, easement, right-of-way, or other land use occupancy agreement on the transfer of the water right, or a party acquiring a water right on behalf of the person or government entity;
- ▶ states that, among other reasons, a livestock watering right may be considered valid if it is held by a beneficial user who has the right to use the grazing permit and graze livestock on the allotment;
- ▶ provides that if a reduction in livestock grazing results in a forfeiture of water, the state engineer shall hold the appropriated water right in trust until the water can be appropriated for livestock watering; and
