(1) The amount of Utah net loss that shall be carried back or forward to offset income of another taxable year is determined as provided in this section.

(2) (a) Subject to the other provisions of this section, a Utah net loss from a taxable year beginning before January 1, 1994, shall be carried back three taxable years preceding the taxable year of the loss and any remaining loss shall be carried forward five taxable years following the taxable year of the loss.

(b) (i) Subject to the other provisions of this section, a Utah net loss from a taxable year beginning on or after January 1, 1994, may be carried back three taxable years preceding the taxable year of the loss and carried forward 15 taxable years following the taxable year of the loss.

(ii) Subsection (5)(a)(i) does not apply if the only change in the corporation is that of the state of incorporation.

(b) An acquired corporation may deduct the acquired corporation's net losses incurred before the date of acquisition against the acquired corporation's separate income as calculated under Subsections (6) and (7) if the acquired corporation has continued to carry on a trade or business substantially the same as that conducted before the acquisition.

(6) For purposes of Subsection (5)(b), the amount of net loss an acquired corporation that is acquired by a unitary group may deduct is calculated by:

(B) an amount determined by dividing the total amount paid in this state during the taxable year by the acquired corporation for compensation by the total compensation paid everywhere by the unitary group during the taxable year; and

(C) an amount determined by:

(I) dividing the total sales of the acquired corporation in this state during the taxable year by the total sales of the unitary group everywhere during the taxable year; and
