448 (b) The director may work with other departments, agencies, or political subdivisions
449 in conducting an investigation, study, or experiment, as described in Subsection (1)(a).

450 (c) (i) Where an investigation, study, or experiment described in Subsection (1)(a)
451 finds that the transfer of a tract of public land in excess of 200 acres would promote economic
452 land management or serve an important public interest, including the expansion of
453 communities and economic development, the director shall recommend the transfer to the
454 Natural Resources, Agriculture, and Environment Interim Committee and include the basis for
455 the recommendation.

456 (ii) No transfer of a tract of public land in excess of 200 acres may be authorized until
457 approved by the Legislature and the governor.

486 (1) The Legislature finds that, as of 2016, a substantial amount of the rangelands on the
487 public land is deteriorating in quality due to federal mismanagement, and that installation of
488 additional range improvements could arrest much of the continuing deterioration and lead to
489 substantial betterment of forage conditions with resulting benefits to wildlife, watershed
490 protection, and livestock production.

491 (2) The director, in consultation with the commissioner, shall:
492 (a) conduct a study to determine necessary range improvements on public land; and
493 (b) establish a fee, in accordance with Section [63J-1-504](#), to be charged for domestic
494 livestock grazing on public land that is equitable to the:
495 (i) state and the state's citizens; and
496 (ii) holders of grazing permits and leases on rangeland.
497 (3) The director shall report the result of the study described in Subsection (2)(a) to the
498 Natural Resources, Agriculture, and Environment Interim Committee, together with
499 recommendations to implement a reasonable grazing fee schedule.

509 grazing on public land issued by the director may not exceed a term of five years, subject to
510 terms and conditions the director determines to be appropriate and consistent with this chapter.
511 (b) The director shall have authority to cancel, suspend, or modify a grazing permit or
512 lease, in whole or in part:
513 (i) pursuant to the terms and conditions of the permit or lease;
514 (ii) for any violation of:
515 (A) this chapter or a grazing rule implemented under this chapter; or
516 (B) any term or condition of the grazing permit or lease; or
517 (iii) to protect rangeland health from overutilization pursuant to Subsection (7).
518 (2) The holder of an expiring permit or lease shall be given first priority for receipt of
519 the new permit or lease, provided:
520 (a) the land for which the permit or lease is issued remains available for domestic
521 livestock grazing in accordance with a land use plan prepared pursuant to Section [63L-8-202](#);

- 522 (b) the permittee or lessee is in compliance with:
523 (i) the provisions of this chapter and the grazing rules issued by the DLM, in
524 accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act; or
525 (ii) the terms and conditions in the permit or lease specified by the director;
526 (c) the permittee or lessee accepts the terms and conditions included by the director in
527 the new permit or lease; and
528 (d) range conditions on the tract of public land are sufficient to support continued
529 livestock grazing, as determined by the director pursuant to Subsection (7).
530 (3) All permits and leases for domestic livestock grazing issued under this part may be
531 incorporated in an allotment management plan developed by the director.
532 (4) (a) If the director elects to develop an allotment management plan for a given area,
533 the director shall do so in consultation, cooperation, and coordination with:
534 (i) the lessees, permittees, and landowners involved;
535 (ii) the commissioner;
536 (iii) the State Grazing Advisory Board established under Section [4-20-1.5](#); and
537 (iv) the political subdivision having land within the area covered by the proposed
538 allotment management plan.
539 (b) An allotment management plan shall be:
540 (i) tailored to the specific range condition of the area covered by the plan; and

542 (A) the efficacy of the plan in improving range conditions on the involved land; and
543 (B) whether the land can be better managed.
544 (5) The director may revise or terminate plans, or develop new plans, after review and
545 consideration, consultation, cooperation, and coordination with the parties listed in Subsection
546 (4)(a).
547 (6) (a) In all cases where the director has not completed an allotment management plan
548 or determines that an allotment management plan is not necessary for management of livestock
549 operations, the director shall incorporate in grazing permits and leases all necessary terms and
550 conditions for the appropriate management of the permitted or leased land.
551 (b) The director, in consultation with the commissioner:
552 (i) shall specify the number of animals to be grazed and the seasons of use; and

553 (ii) may reexamine the condition of the range and forage utilization at any time.

554 (7) If the director finds that the condition of the range requires adjustment in the
555 amount or other aspect of grazing use, the permittee or lessee shall adjust the permittee or
556 lessee's use to the extent required by the director.

557 (8) An allotment management plan may not refer to livestock operations or range
558 improvements on non-public land, except where the non-public land is intermingled with
559 public land and the consent of the owner of the non-public land and the permittee or lessee
560 involved with the plan is obtained.

561 (9) (a) Whenever a permit or lease for grazing domestic livestock on public land is
562 canceled, in whole or in part, in order to devote the land covered by the permit or lease to
563 another public purpose, the permittee or lessee shall receive from the state reasonable
564 compensation for the adjusted value, to be determined by the director, of the permittee or
565 lessee's interest in authorized permanent improvements placed or constructed by the permittee
566 or lessee on lands covered by such permit or lease.

567 (b) The compensation described in Subsection (9)(a) may not exceed the fair market
568 value of the terminated portion of the permittee's or lessee's interest.

569 (10) Except in cases of emergency, no permit or lease shall be canceled under this
570 subsection without one year's notification.

571 Section 25. Section **63L-8-501** is enacted to read:

572 **Part 5. Rights-of-Way Authorization**

577 (1) If the state receives title to public land from the federal government, the director
578 shall, subject to Subsection (2), honor all:

579 (a) pre-existing rights-of-way granted to individuals, corporations, or political
580 subdivisions, subject to Subsection (2); and

581 (b) rights-of-way asserted in quiet title lawsuits filed by the state or a county in federal
582 court prior to taking ownership of the subject property.

583 (2) If the director determines it is in the best interest of the state, the director may

584 modify the fees, if any, charged to the holder of a right-of-way.

585 Section 27. Section **63L-8-503** is enacted to read:

586 **63L-8-503. Grant, issue, or renewal of land use authorizations on public lands.**

587 (1) The director is authorized to grant, issue, or renew land use authorizations over,

588 upon, under, or through public land for:

589 (a) a reservoir, canal, ditch, flume, lateral, pipe, pipeline, tunnel, or other facility or
590 system for the impoundment, storage, transportation, or distribution of water;

591 (b) a pipeline or other system for the transportation or distribution of:

592 (i) liquid and gas other than water;

593 (ii) natural gas, synthetic liquid, or gaseous fuels; or

594 (iii) a refined product produced from natural gas, synthetic liquid, or gaseous fuels;

595 (c) a storage or terminal facility in connection with the pipeline and other system

596 described in Subsection (1)(b);

597 (d) a pipeline, slurry and emulsion system, conveyor belt for transportation and
598 distribution of solid materials, or facility for the storage of solid materials in connection with a
599 pipeline, slurry and emulsion system, or conveyor belt;

600 (e) a system for generation, transmission, and distribution of electric energy, if the
601 applicant is in compliance with relevant state and federal requirements;

602 (f) a system for transmission or reception of radio, television, telephone, telegraph,
603 Internet, or other electronic signal used in communication;

604 (g) a road, trail, highway, railroad, canal, tunnel, tramway, airway, livestock driveway,
605 or other means of transportation, except where facilities are constructed and maintained in
606 connection with commercial recreation facilities on lands in the state park system; or

607 (h) other necessary transportation systems or facilities that are in the public interest and
608 that require rights-of-way over, upon, under, or through public land.

609 (2) The director shall require, before granting, issuing, or renewing a right-of-way, that
610 the applicant submit and disclose plans, contracts, agreements, or other information reasonably
611 related to the use, or intended use, of the right-of-way, that the director considers necessary for
612 a determination on:

613 (a) whether a right-of-way shall be granted, issued, or renewed; and

614 (b) the terms and conditions that should be included in the right-of-way.

615 (3) After the state receives title to public land, any alteration to the substantive terms of
616 a right-of-way, lease, or other authorization granted before the transfer of the land shall require
617 issuance of a new authorization.

618 (4) (a) Except as otherwise provided in this part, the director may, in accordance with
619 Section 63L-8-509, terminate or suspend a right-of-way, easement, or authorization issued
620 under this section, except for the road rights-of-way granted pursuant to Subsection (1)(b).

621 (b) An easement issued under this section may be terminated by the DLM without cause
622 if the water system for which the easement was issued is used for any purpose other than
623 agricultural irrigation, livestock watering, industrial use, or private or public culinary use.

624 (5) For purposes of this chapter, non-use for a continuous five-year period of a water
625 system developed for agricultural irrigation, livestock watering, or private or public culinary
626 purposes shall constitute a rebuttable presumption of abandonment of the easement and the
627 facilities comprising the water system.

628 (6) Except as provided in Title 73, Water and Irrigation, nothing in this part shall
629 confer on the director or other state official any power or authority to regulate or control the
630 appropriation, diversion, or use of water for any purpose, or to require the conveyance or
631 transfer to the state of any right or claim to the appropriation, diversion, or use of water.

632 (7) If a right-of-way issued under this section deteriorates to the point of threatening a
633 person or property, and the holder of the right-of-way, after consultation with the director,
634 refuses to perform the repair and maintenance necessary to remove the threat, the director may:

635 (a) (i) undertake such repair and maintenance on the right-of-way; and

636 (ii) assess the holder for the costs of the repair and maintenance; or

637 (b) suspend or terminate the right-of-way pursuant to Section 63L-8-509.

638 Section 28. Section **63L-8-504** is enacted to read:

639 **63L-8-504. Roads.**

640 (1) The director, with respect to public land, is authorized to provide for the
641 authorization, construction, and maintenance of new and necessary roads within the public land
642 that will permit utilization of the natural resources on such land, including the seven principal
643 or major uses described in Section 63L-8-103.

644 (2) The roads described in Subsection (1) shall be constructed to standards sufficient to
645 provide for the safety of the authorized users of the road, and to protect the environment to the

646 best available management standards applicable.

647 (3) Financing of the roads described in Subsection (1) may be accomplished by:

648 (a) the director utilizing appropriated funds;

649 (b) requirements on authorized users of the natural resources and other products from

650 the public land, including provisions for amortization of road costs in contracts;

651 (c) cooperative financing with other public agencies and with private agencies or

652 persons; or

653 (d) a combination of these methods, provided that:

654 (i) where roads of a higher standard than that needed for harvesting or removing

655 natural resources and other products from public land covered by a particular sale are to be

656 constructed, the authorized user may not be required to bear that part of the costs necessary to

657 meet such higher standard; or

658 (ii) when natural resource products are offered with the condition that the purchaser

659 build a road or roads in accordance with standards specified in the offer, the authorized user is

660 responsible for paying the full costs of road construction.

661 Section 29. Section **63L-8-505** is enacted to read:

662 **63L-8-505. Maintenance of facilities.**

663 (1) (a) The director may require a user of a road, trail, land, or other facility

664 administered by the DLM, or authorized by a DLM issued land use authorization, to:

665 (i) maintain facilities in a satisfactory condition commensurate with the particular use

666 requirements of each; or

667 (ii) reconstruct the facility when the reconstruction is determined necessary to

668 accommodate use.

669 (b) If maintenance or reconstruction cannot be provided, or if the director determines

670 that maintenance or reconstruction by a user would not be practical, the director may require

671 that sufficient funds be deposited by the user to provide the user's portion of the total

672 maintenance or reconstruction.

673 (2) Whenever the director obtains money for use on, or in connection with, a new or

674 existing road or the right to use such roads, the money shall be placed in the Public Land

675 Management Fund created in Section [63L-8-308](#).

676 Section 30. Section **63L-8-506** is enacted to read:

677 **63L-8-506. Right-of-way corridors -- Criteria and procedures applicable for**
678 **designation.**

679 (1) Utilization of a right-of-way in common is suggested to the extent practical in order
680 to minimize adverse environmental impacts and the proliferation of separate rights-of-way.

681 (2) In designating a right-of-way corridor, the director shall take into consideration:

682 (a) national, state, and local land use policies;

683 (b) environmental quality;

684 (c) economic efficiency;

685 (d) national security;

686 (e) safety;

687 (f) good engineering and technological practices; and

688 (g) wildlife and wildlife habitat impacts.

689 (3) The director shall issue rules in accordance with Title 63G, Chapter 3, Utah
690 Administrative Rulemaking Act, containing the criteria and procedures the DLM shall use in
691 designating such a corridor.

692 (4) An existing transportation or utility corridor may be designated as a transportation
693 or utility corridor without further review.

694 Section 31. Section **63L-8-507** is enacted to read:

695 **63L-8-507. General requirements.**

696 (1) (a) Each land use authorization granted, issued, or renewed shall be limited to a
697 reasonable term in light of all circumstances concerning the project, not exceeding 5 years.

698 (b) In determining the duration of a land use authorization, the director shall:

699 (i) take into consideration the cost of the facility, the facility's useful life, and any
700 public purpose the facility serves; and

701 (ii) specify whether the land use authorization is or is not renewable and the terms and
702 conditions applicable to the renewal.

703 (2) A land use authorization shall be granted, issued, or renewed:

709 (3) Before granting or issuing a land use authorization pursuant to this part for a new
710 project that may have a significant impact on the environment, the director shall require the
711 applicant to submit a plan of construction, operation, mitigation, and rehabilitation for the land
712 use authorization.

713 (4) The director shall issue rules, in accordance with Title 63G, Chapter 3, Utah
714 Administrative Rulemaking Act, with respect to the terms and conditions that will be included
715 in a land use authorization.

716 (5) The director shall provide for cost-sharing agreements for the construction and
717 maintenance of land use authorization facilities, pursuant to rules for such arrangements issued
718 by the DLM.

719 (6) Money received for reimbursement of reasonable costs shall be:

720 (a) deposited into the Public Land Management Fund created in Section [63L-8-308](#);
721 and

722 (b) authorized to be appropriated and made available until expended.

723 (7) (a) The director shall promulgate rules, in accordance with Title 63G, Chapter 3,

725 may be liable to the state for damage or injury incurred by the state caused by the use and
726 occupancy of the land use authorization.

727 (b) The rules described in Subsection (7)(a) shall also specify the extent to which a
728 holder of a right-of-way shall indemnify or hold harmless the state for liabilities, damages, or
729 claims caused by the use and occupancy of the right-of-way.

730 (8) The director may require a holder of a land use authorization to furnish a bond or
731 other security to secure all or any of the obligations imposed by the terms and conditions of the
732 right-of-way.

733 (9) The director may grant, issue, or renew a land use authorization under this part if
734 the director is satisfied that the applicant has the technical and financial capability to construct
735 the project for which the right-of-way is requested.

736 Section 32. Section **63L-8-508** is enacted to read:

737 **63L-8-508. Terms and conditions.**

738 Each land use authorization shall contain terms and conditions that:

 740 accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act;
 741 (2) minimize damage to scenic and esthetic values, fish and wildlife habitat, and
 742 otherwise protect the environment;
 743 (3) require compliance with applicable air and water quality standards established by
 744 applicable federal or state law;
 745 (4) require compliance with state standards for public health and safety, environmental
 746 protection, siting, construction, operation, and maintenance of or for rights-of-way for similar
 747 purposes if those standards are more stringent than applicable federal standards; and
 748 (5) are necessary to:
 749 (a) protect state property and economic interests;
 750 (b) efficiently manage the land that is subject to the land use authorization; and
 751 (c) protect the other lawful users of the lands adjacent to or traversed by the land that is
 752 subject to the land use authorization.

753 Section 33. Section **63L-8-509** is enacted to read:

754 **63L-8-509. Suspension or termination -- Grounds -- Procedures applicable.**

- 755 (1) The following are grounds for suspension or termination of a land use
 756 authorization:
 757 (a) abandonment; or
 758 (b) noncompliance with:
 759 (i) a provision of this chapter;
 760 (ii) an applicable rule established by the DLM in accordance with Title 63G, Chapter 3,
 761 Utah Administrative Rulemaking Act; or
 762 (iii) a term or condition of the land use authorization.
 763 (2) The director may terminate or suspend a land use authorization by providing notice
 764 to the land use authorization holder and, if required, an administrative proceeding, upon finding
 765 that:
 766 (a) a condition described in Subsection (1) has been met; and
 767 (b) the suspension or termination serves the best interest of:
 768 (i) the citizens of the state; or
 769 (ii) a land use plan established pursuant to Section [63L-8-202](#).

770 (3) The administrative proceeding described in Subsection (2):
771 (a) shall be conducted according to rules established by the DLM, in accordance with
772 Title 63G, Chapter 3, Utah Administrative Rulemaking Act;

773 (b) shall comply with Title 63G, Chapter 4, Administrative Procedures Act; and
774 (c) is not required if the land use authorization, by its terms, terminates on the
775 occurrence of a fixed or agreed-upon condition, event, or time.

776 (4) If the director determines that an immediate temporary suspension of activities
777 within a land use authorization for violation of its terms and conditions is necessary to protect
778 public health or safety or the environment, the director may abate the activities before an
779 administrative proceeding.

780 (5) Before commencing a proceeding to suspend or terminate a land use authorization,
781 the director shall give written notice to the holder of the grounds for suspension or termination.

782 (6) (a) Except as provided in Subsection (6)(b), failure of the land use authorization
783 holder to use the right-of-way for the purpose for which it was granted, issued, or renewed, for
784 any continuous five-year period, shall constitute a rebuttable presumption of abandonment of
785 the right-of-way.

786 (b) Where the failure of the holder to use the land use authorization for the purpose for
787 which it was granted, issued, or renewed for any continuous five-year period is due to
788 circumstances beyond the holder's control, the director is not required to commence
789 proceedings to suspend or terminate the right-of-way.
