Section 8. Section **31A-22-647** is enacted to read:

31A-22-647. Managed care organization out-of-network services -- Emergency services -- Post-stabilization care -- Balance billing.

(1) (a) A managed care organization shall have a process to ensure that an enrollee obtains covered services at a network level of benefits, including a network level of cost sharing, from a non-network provider, or shall make other arrangements acceptable to the commissioner:

(i) in accordance with Section 31A-22-645; and

(ii) (A) when an enrollee is diagnosed with a condition or disease that requires specialized health care services; and

(B) the managed care organization does not have a network provider of the required specialty with the professional training and expertise to treat or provide the health care services for the condition or disease, or cannot provide reasonable access to a network provider with the required training or expertise to treat or provide health care services for the condition or disease.

(b) A managed care organization shall:

(i) inform an enrollee of the process the enrollee may use to request access to obtain a covered benefit from a non-network provider in accordance with Subsection (1)(a);

(ii) have a system in place that documents all requests to obtain covered benefits from a non-network provider under Subsection (1)(a); and

(iii) ensure that requests to obtain a covered benefit from a non-network provider under Subsection (1)(a) are addressed in a timely fashion appropriate to the covered person's condition.

(2) (a) A managed care organization shall reimburse a non-network provider for emergency services and post stabilization care in accordance with this section.

(b) A managed care organization shall:

(i) accept assignment of benefits from an enrollee for emergency services and post-stabilization care provided by a non-network provider; and

HB0395S01 compared with HB0395

(ii) send an explanation of benefits to the non-network provider with the information required under Subsection (5)(a).

(c) (i) Payment to a non-network provider for emergency services shall be the greater of the amount calculated under Subsection (2)(c)(ii) plus 5% of that amount.

(~~iii~~B) the amount for the emergency services calculated using the same method the managed care organization generally uses to determine payments for out-of-network services, such as the usual, customary, and reasonable amount, excluding any in-network copayment or coinsurance imposed with respect to an enrollee, as provided in Subsection (2)(d)(ii).

(d) (i) If there is more than one amount negotiated with in-network providers for the emergency service under Subsection (2)(c)(i)(A), the amount is the median of these amounts, excluding any in-network copayment or coinsurance imposed with respect to the enrollee. In determining the median under this Subsection (2)(d)(i), the amount negotiated with each in-network provider is treated as a separate amount, even if the same amount is paid to more than one provider.

(ii) The amount under Subsection (2)(c)(ii)(B) is determined without reduction for out-of-network cost sharing that generally applies under the plan with respect to out-of-network services. For example, if a plan generally pays 70% of the usual, customary, and reasonable amount for out-of-network services, the amount under this Subsection (2)(d)(ii) for an emergency service is 100% of the usual, customary, and reasonable amount for the service, not reduced by the 30% coinsurance that would generally apply to out-of-network services, but reduced by the in-network copayment or coinsurance that the enrollee would be responsible for if the emergency service had been provided in-network.

(e) Payment to a non-network provider for post stabilization care shall be the greater of:

(i) the minimum payment required under the applicable provisions of 45 C.F.R. Sec. 147.138; or

HB0395S01 compared with HB0395

provider network associated with the managed care organization's most popular health benefit plan.

(3) (a) A non-network provider who is reimbursed under Subsection (2)(c) or (2)(e) may not balance bill an enrollee in excess of the amount under this Subsection (~~(3)(b)~~).

(b) A non-network provider may balance bill an enrollee for emergency services in an amount that is the lesser of:

(i) ~~{5%}~~ 10% above the ~~{in-network}~~ amount allowed ~~{amount}~~ under Subsection (2)(c) for the emergency services; or

(ii) \$5,000.

(c) A non-network provider may not balance bill an enrollee for post stabilization care.

(4) (a) A managed care organization may elect to pay a non-network provider for emergency services or post stabilization care:

(i) as submitted by the provider;

(ii) in accordance with the benchmark established in Subsection (2)(c) or (2)(e); or

(iii) in an amount mutually agreed upon by the managed care organization and the provider.

(b) This section does not preclude a managed care organization and a non-network provider from agreeing to a different payment arrangement if:

(i) the enrollee is responsible for no more than:

(A) the applicable in-network cost sharing amount; and

(B) the balance bill amount allowed under Subsection (~~(2)(c)~~ 3); and

(ii) the enrollee has no legal obligation to pay the balance for emergency services or post stabilization care remaining after the payments under Subsection (4)(b)(i).

(c) If a non-network provider sends a bill directly to an enrollee for emergency services or post stabilization care, the bill shall notify the enrollee:

(i) that the emergency services or post stabilization care were performed by a provider who is not a network provider for the enrollee's health benefit plan;

(ii) that the enrollee is responsible for paying the enrollee's applicable in-network cost-sharing amount and the additional balance bill allowed under Subsection (~~(2)(c)~~ 3);

(iii) the enrollee has no legal obligation to pay the remaining balance for the emergency services; and

HB0395S01 compared with HB0395

(iv) the enrollee may contact the state insurance commissioner's office for assistance.

(5) A non-network provider who receives payment from the managed care organization under Subsection (2)(c) ~~or (2)(e)~~:

(a) may rely on the explanation of benefits provided by the managed care organization to the enrollee and the non-network provider, informing the non-network provider of:

(i) the amount the non-network provider may attempt to collect from the enrollee for the enrollee's cost sharing, including unmet deductibles, copayments, and coinsurance; and

(ii) the managed care organization's ~~in-network~~ allowed amount ~~under Subsection (2)(c)~~ for the emergency services ~~or Subsection (2)(e) for post stabilization care~~;

(b) shall accept the following payment from the enrollee as payment in full for the emergency services ~~and post stabilization care~~:

(i) payment of cost sharing from the enrollee; and

(ii) payment of the additional balance bill allowed under Subsection ~~(2)(c)3~~; and

(c) may not attempt to collect payment from an enrollee for emergency services ~~or post stabilization care~~ in excess of the amount under Subsection (5)(b).

(6) The rights and remedies provided under this section to an enrollee shall be in addition to, and may not preempt, any other rights and remedies available to an enrollee under state or federal law.

(7) On or before November 30, ~~2021~~2019, the commissioner shall report to the Business and Labor Interim Committee regarding the ~~benchmark~~ benchmarks established in Subsections (2)(c), ~~(d)~~ and ~~(d)e~~, the balance billing allowed under Subsection (4), and whether the payment benchmarks ~~and allowed balance billing~~ should be modified.
