

**Representative Patrice M. Arent** proposes the following substitute bill:

**CONCURRENT RESOLUTION SUPPORTING RURAL  
DEVELOPMENT OF WIND, SOLAR, AND GEOTHERMAL  
ENERGY**

2018 GENERAL SESSION

STATE OF UTAH

**Chief Sponsor: Patrice M. Arent**

Senate Sponsor: Evan J. Vickers

8	Cosponsors:	Brian S. King	Adam Robertson
9	Carl R. Albrecht	Karianne Lisonbee	V. Lowry Snow
10	Walt Brooks	Carol Spackman Moss	Keven J. Stratton
11	Scott H. Chew	Merrill F. Nelson	R. Curt Webb
12	Bruce R. Cutler	Dixon M. Pitcher	John R. Westwood
13	Susan Duckworth	Val K. Potter	Mark A. Wheatley
14	Rebecca P. Edwards	Marie H. Poulson	Mike Winder
15	Gage Froerer	Edward H. Redd	
	Stephen G. Handy

17 **LONG TITLE**

18 **General Description:**

19       This resolution supports the development of wind, solar, and geothermal energy in rural  
20 areas of the state as a complement to Utah's diversified energy system and supports the  
21 export of Utah-produced wind, solar, and geothermal energy to other states.

22 **Highlighted Provisions:**

23       This resolution:

- 24           ▶ acknowledges the important role of rural communities in the development of energy
- 25 resources;
- 26           ▶ recognizes the economic and supply benefits that wind, solar, and geothermal
- 27 energy development provide;
- 28           ▶ recognizes the energy market opportunities available to those states that develop
- 29 wind, solar, and geothermal energy;
- 30           ▶ supports the development of wind, solar, and geothermal energy in rural areas of the
- 31 state as a complement to Utah's diversified energy system; and
- 32           ▶ supports the export of Utah-produced wind, solar, and geothermal energy to other
- 33 states.

34 **Special Clauses:**

35           None

36 

---

37 *Be it resolved by the Legislature of the state of Utah, the Governor concurring therein:*

38           WHEREAS, Utah's rural communities have long produced much of the energy

39 necessary to drive Utah's economy;

40           WHEREAS, some of these rural communities have not always enjoyed the prosperity

41 that has come with Utah's tremendous economic growth in recent decades;

42           WHEREAS, many of these rural communities are rich with the natural resources,

43 including wind, sun, and geothermal resources, necessary to provide energy for Utah and the

44 nation;

45           WHEREAS, competitive energy markets in western states are providing new

46 opportunities for the sale of energy across state lines;

47           WHEREAS, Utah's natural salt dome geologic formations provide complementary

48 cost-effective storage potential for wind, solar, and geothermal development, as well as their

49 own economic development opportunities;

50           WHEREAS, many western states are responding to this energy opportunity by

51 harnessing wind, solar, and geothermal power, thus providing economic benefits for rural

52 communities and energy supplies to customers within and outside their states; and

53           WHEREAS, Utah has an opportunity to maintain its position as a net exporter of energy

54 and a leader in energy production and innovation in the region:

55           NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah, the  
56 Governor concurring therein, supports rural development of wind, solar, and geothermal energy  
57 resources within Utah as a complement to Utah's diversified energy system, so that Utah's rural  
58 communities can take an active part in and receive the benefits of Utah's economic  
59 development.

60           BE IT FURTHER RESOLVED that the Legislature and the Governor support the  
61 export of Utah-produced wind, solar, and geothermal energy to other states in the West through  
62 participation in centralized and bilateral energy markets.
