37 that are opioids.

38 (2) (a) A prescriber shall check the database for information about a patient before the

40 III opioid.

41 (b) If a prescriber is repeatedly prescribing a Schedule II opioid or Schedule III opioid
42 to a patient, the prescriber shall periodically review information about the patient in:

50 (b) by checking an electronic health record system if the electronic health record system:

51 (A) is connected to the database through a connection that has been approved by the
52 division; and

53 (B) displays the information from the database in a prominent manner for the
54 prescriber.

55 (ii) The division may not approve a connection to the database if the connection does

57 [~~(f)~~] (f) A prescriber is not in violation of the requirements of Subsection (2)(a) or (b)

- 78 seeking an opioid may be obtaining opioids in quantities or frequencies inconsistent with
- 79 generally recognized standards as provided in this section and Section 58-37f-201, the
- 80 dispenser shall reasonably attempt to contact the prescriber to obtain the prescriber's informed,
- 81 current, and professional decision regarding whether the prescribed opioid is medically
- 82 justified, notwithstanding the results of the database search.
- 83 (5) (a) The division shall review the database to identify any prescriber who has a

98 division under this Subsection (5) in a licensing investigation or action by the division.

99 (e) Any record created by the division as a result of this Subsection (5) is a protected
100 record under Section [63G-2-305](#).
