(a) who did not sign the civil commitment application nor the civil commitment
certification under Subsection (1);

(b) one of whom is a licensed physician; and

(c) one of whom may be designated by the proposed patient or the proposed patient's
counsel, if that designated examiner is reasonably available.

(9) The court shall schedule a hearing to be held within 10 calendar days of the day on
which the designated examiners are appointed.

(10) The designated examiners shall:

(a) conduct their examinations separately;

(b) conduct the examinations at the home of the proposed patient, at a hospital or other
medical facility, or at any other suitable place that is not likely to have a harmful effect on the
proposed patient's health;

(c) inform the proposed patient, if not represented by an attorney:

(i) that the proposed patient does not have to say anything;
(ii) of the nature and reasons for the examination;
(iii) that the examination was ordered by the court;
(iv) that any information volunteered could form part of the basis for the proposed
patient's involuntary commitment; and
(v) that findings resulting from the examination will be made available to the court;
and
(d) within 24 hours of examining the proposed patient, report to the court, orally or in
writing, whether the proposed patient is mentally ill, has agreed to voluntary commitment, as
described in Section 62A-15-625, or has acceptable programs available to the proposed patient
without court proceedings. If the designated examiner reports orally, the designated examiner
shall immediately send a written report to the clerk of the court.
(11) If a designated examiner is unable to complete an examination on the first attempt
because the proposed patient refuses to submit to the examination, the court shall fix a
reasonable compensation to be paid to the examiner.
(12) If the local mental health authority, its designee, or a medical examiner determines
before the court hearing that the conditions justifying the findings leading to a commitment
hearing no longer exist, the local mental health authority, its designee, or the medical examiner
shall immediately report that determination to the court.
(13) The court may terminate the proceedings and dismiss the application at any time,
including prior to the hearing, if the designated examiners or the local mental health authority
or its designee informs the court that the proposed patient:
(a) is not mentally ill;
(b) has agreed to voluntary commitment, as described in Section 62A-15-625; or
(c) has acceptable options for treatment programs that are available without court
proceedings.
(14) Before the hearing, an opportunity to be represented by counsel shall be afforded
to [every] the proposed patient, and if neither the proposed patient nor others provide counsel,
the court shall appoint counsel and allow counsel sufficient time to consult with the proposed
patient before the hearing. In the case of an indigent proposed patient, the payment of
reasonable attorney fees for counsel, as determined by the court, shall be made by the county in
which the proposed patient resides or is found.

(15) (a) The proposed patient, the applicant, and all other persons to whom notice is
required to be given shall be afforded an opportunity to appear at the hearing, to testify, and to
present and cross-examine witnesses. The court may, in its discretion, receive the testimony of
any other person. The court may allow a waiver of the proposed patient's right to appear only
for good cause shown, and that cause shall be made a matter of court record.

(b) The court is authorized to exclude all persons not necessary for the conduct of the
proceedings and may, upon motion of counsel, require the testimony of each examiner to be
given out of the presence of any other examiners.

(c) The hearing shall be conducted in as informal a manner as may be consistent with
orderly procedure, and in a physical setting that is not likely to have a harmful effect on the
mental health of the proposed patient.

(d) The court shall consider all relevant historical and material information that is
offered, subject to the rules of evidence, including reliable hearsay under Rule 1102, Utah
Rules of Evidence.

(e) (i) A local mental health authority or its designee, or the physician in charge of the
proposed patient's care shall, at the time of the hearing, provide the court with the following
information:

(A) the detention order;

(B) admission notes;

(C) the diagnosis;

(D) any doctors' orders;

(E) progress notes;

(F) nursing notes; [and]

(G) medication records pertaining to the current commitment[.]; and

(H) whether the proposed patient has previously been civilly committed or under an
order for assisted outpatient treatment.

(ii) That information shall also be supplied to the proposed patient's counsel at the time
of the hearing, and at any time prior to the hearing upon request.

(16) The court shall order commitment of a proposed patient who is 18 years of age or
older to a local mental health authority if, upon completion of the hearing and consideration of
the information presented in accordance with Subsection (15)(d), the court finds by clear and
convincing evidence that:

(a) the proposed patient has a mental illness;
(b) because of the proposed patient's mental illness the proposed patient poses a
substantial danger to self or others;
(c) the proposed patient lacks the ability to engage in a rational decision-making
process regarding the acceptance of mental treatment as demonstrated by evidence of inability
to weigh the possible risks of accepting or rejecting treatment;
(d) there is no appropriate less-restrictive alternative to a court order of commitment;
and
(e) the local mental health authority can provide the proposed patient with treatment
that is adequate and appropriate to the proposed patient's conditions and needs. In the absence
of the required findings of the court after the hearing, the court shall dismiss the proceedings.

(17) (a) The order of commitment shall designate the period for which the patient shall
be treated. When the patient is not under an order of commitment at the time of the hearing,
that period may not exceed six months without benefit of a review hearing. Upon such a
review hearing, to be commenced prior to the expiration of the previous order, an order for
commitment may be for an indeterminate period, if the court finds by clear and convincing
evidence that the required conditions in Subsection (16) will last for an indeterminate period.

(b) The court shall maintain a current list of all patients under its order of commitment.
That list shall be reviewed to determine those patients who have been under an order of
commitment for the designated period. At least two weeks prior to the expiration of the
designated period of any order of commitment still in effect, the court that entered the original
order shall inform the appropriate local mental health authority or its designee. The local
mental health authority or its designee shall immediately reexamine the reasons upon which the
order of commitment was based. If the local mental health authority or its designee determines
that the conditions justifying that commitment no longer exist, it shall discharge the patient
from involuntary commitment and immediately report the discharge to the court. Otherwise,
the court shall immediately appoint two designated examiners and proceed under Subsections
(8) through (14).

(c) The local mental health authority or its designee responsible for the care of a patient
under an order of commitment for an indeterminate period shall, at six-month intervals,
reexamine the reasons upon which the order of indeterminate commitment was based. If the
local mental health authority or its designee determines that the conditions justifying that
commitment no longer exist, that local mental health authority or its designee shall discharge
the patient from its custody and immediately report the discharge to the court. If the local
mental health authority or its designee determines that the conditions justifying that
commitment continue to exist, the local mental health authority or its designee shall send a
written report of those findings to the court. The patient and the patient's counsel of record
shall be notified in writing that the involuntary commitment will be continued, the reasons for
that decision, and that the patient has the right to a review hearing by making a request to the
court. Upon receiving the request, the court shall immediately appoint two designated
examiners and proceed under Subsections (8) through (14).

(18) Any patient committed as a result of an original hearing or a patient's legally
designated representative who is aggrieved by the findings, conclusions, and order of the court
entered in the original hearing has the right to a new hearing upon a petition filed with the court
within 30 days of the entry of the court order. The petition must allege error or mistake in the
findings, in which case the court shall appoint three impartial designated examiners previously
unrelated to the case to conduct an additional examination of the patient. The new hearing
shall, in all other respects, be conducted in the manner otherwise permitted.

(19) Costs of all proceedings under this section shall be paid by the county in which the
proposed patient resides or is found.

Section 8. Section 62A-15-703 is amended to read:

62A-15-703. Residential and inpatient settings -- Commitment proceeding --

Child in physical custody of local mental health authority.

(1) A child may receive services from a local mental health authority in an inpatient or residential setting only after a commitment proceeding, for the purpose of transferring physical custody, has been conducted in accordance with the requirements of this section.

(2) That commitment proceeding shall be initiated by a petition for commitment, and shall be a careful, diagnostic inquiry, conducted by a neutral and detached fact finder, pursuant to the procedures and requirements of this section. If the findings described in Subsection (4) exist, the proceeding shall result in the transfer of physical custody to the appropriate local mental health authority, and the child may be placed in an inpatient or residential setting.

(3) The neutral and detached fact finder who conducts the inquiry:

(a) shall be a designated examiner, as defined in Section 62A-15-602; and

(b) may not profit, financially or otherwise, from the commitment or physical placement of the child in that setting.

(4) Upon determination by a fact finder that the following circumstances clearly exist, the fact finder may order that the child be committed to the physical custody of a local mental health authority:

(a) the child has a mental illness, as defined in [Subsection] Section 62A-15-602(13);

(b) the child demonstrates a reasonable fear of the risk of substantial danger to self or others;

(c) the child will benefit from care and treatment by the local mental health authority;

and

(d) there is no appropriate less-restrictive alternative.

(5) (a) The commitment proceeding before the neutral and detached fact finder shall be conducted in as informal manner as possible and in a physical setting that is not likely to have a harmful effect on the child.
(b) The child, the child's parent or legal guardian, the petitioner, and a representative of
the appropriate local mental health authority:
(i) shall receive informal notice of the date and time of the proceeding; and
(ii) may appear and address the petition for commitment.
(c) The neutral and detached fact finder may, in the fact finder's discretion, receive the
testimony of any other person.
(d) The fact finder may allow a child to waive the child's right to be present at the
commitment proceeding, for good cause shown. If that right is waived, the purpose of the
waiver shall be made a matter of record at the proceeding.
(e) At the time of the commitment proceeding, the appropriate local mental health
authority, its designee, or the psychiatrist who has been in charge of the child's care prior to the
commitment proceeding, shall provide the neutral and detached fact finder with the following
information, as it relates to the period of current admission:
(i) the petition for commitment;
(ii) the admission notes;
(iii) the child's diagnosis;
(iv) physicians' orders;
(v) progress notes;
(vi) nursing notes; and
(vii) medication records.
(f) The information described in Subsection (5)(e) shall also be provided to the child's
parent or legal guardian upon written request.
(g) (i) The neutral and detached fact finder's decision of commitment shall state the
duration of the commitment. Any commitment to the physical custody of a local mental health
authority may not exceed 180 days. Prior to expiration of the commitment, and if further
commitment is sought, a hearing shall be conducted in the same manner as the initial
commitment proceeding, in accordance with the requirements of this section.
(ii) At the conclusion of the hearing and subsequently in writing, when a decision for
commitment is made, the neutral and detached fact finder shall inform the child and the child's parent or legal guardian of that decision and of the reasons for ordering commitment.

(iii) The neutral and detached fact finder shall state in writing the basis of the decision, with specific reference to each of the criteria described in Subsection (4), as a matter of record.

(6) A child may be temporarily committed for a maximum of 72 hours, excluding Saturdays, Sundays, and legal holidays, to the physical custody of a local mental health authority in accordance with the procedures described in Section 62A-15-629 and upon satisfaction of the risk factors described in Subsection (4). A child who is temporarily committed shall be released at the expiration of the 72 hours unless the procedures and findings required by this section for the commitment of a child are satisfied.

(7) A local mental health authority shall have physical custody of each child committed to it under this section. The parent or legal guardian of a child committed to the physical custody of a local mental health authority under this section, retains legal custody of the child, unless legal custody has been otherwise modified by a court of competent jurisdiction. In cases when the Division of Child and Family Services or the Division of Juvenile Justice Services has legal custody of a child, that division shall retain legal custody for purposes of this part.

(8) The cost of caring for and maintaining a child in the physical custody of a local mental health authority shall be assessed to and paid by the child's parents, according to their ability to pay. For purposes of this section, the Division of Child and Family Services or the Division of Juvenile Justice Services shall be financially responsible, in addition to the child's parents, if the child is in the legal custody of either of those divisions at the time the child is committed to the physical custody of a local mental health authority under this section, unless Medicaid regulation or contract provisions specify otherwise. The Office of Recovery Services shall assist those divisions in collecting the costs assessed pursuant to this section.

(9) Whenever application is made for commitment of a minor to a local mental health authority under any provision of this section by a person other than the child's parent or guardian, the local mental health authority or its designee shall notify the child's parent or guardian. The parents shall be provided sufficient time to prepare and appear at any scheduled
(10) (a) Each child committed pursuant to this section is entitled to an appeal within 30 days after any order for commitment. The appeal may be brought on the child's own petition or on petition of the child's parent or legal guardian, to the juvenile court in the district where the child resides or is currently physically located. With regard to a child in the custody of the Division of Child and Family Services or the Division of Juvenile Justice Services, the attorney general's office shall handle the appeal, otherwise the appropriate county attorney's office is responsible for appeals brought pursuant to this Subsection (10)(a).

(b) Upon receipt of the petition for appeal, the court shall appoint a designated examiner previously unrelated to the case, to conduct an examination of the child in accordance with the criteria described in Subsection (4), and file a written report with the court. The court shall then conduct an appeal hearing to determine whether the findings described in Subsection (4) exist by clear and convincing evidence.

(c) Prior to the time of the appeal hearing, the appropriate local mental health authority, its designee, or the mental health professional who has been in charge of the child's care prior to commitment, shall provide the court and the designated examiner for the appeal hearing with the following information, as it relates to the period of current admission:

(i) the original petition for commitment;

(ii) admission notes;

(iii) diagnosis;

(iv) physicians' orders;

(v) progress notes;

(vi) nursing notes; and

(vii) medication records.

(d) Both the neutral and detached fact finder and the designated examiner appointed for the appeal hearing shall be provided with an opportunity to review the most current information described in Subsection (10)(c) prior to the appeal hearing.

(e) The child, the child's parent or legal guardian, the person who submitted the
original petition for commitment, and a representative of the appropriate local mental health
authority shall be notified by the court of the date and time of the appeal hearing. Those
persons shall be afforded an opportunity to appear at the hearing. In reaching its decision, the
court shall review the record and findings of the neutral and detached fact finder, the report of
the designated examiner appointed pursuant to Subsection (10)(b), and may, in its discretion,
allow or require the testimony of the neutral and detached fact finder, the designated examiner,
the child, the child's parent or legal guardian, the person who brought the initial petition for
commitment, or any other person whose testimony the court deems relevant. The court may
allow the child to waive the right to appear at the appeal hearing, for good cause shown. If that
waiver is granted, the purpose shall be made a part of the court's record.

(11) Each local mental health authority has an affirmative duty to conduct periodic
evaluations of the mental health and treatment progress of every child committed to its physical
custody under this section, and to release any child who has sufficiently improved so that the
criteria justifying commitment no longer exist.

(12) (a) A local mental health authority or its designee, in conjunction with the child's
current treating mental health professional may release an improved child to a less restrictive
environment, as they determine appropriate. Whenever the local mental health authority or its
designee, and the child's current treating mental health professional, determine that the
conditions justifying commitment no longer exist, the child shall be discharged and released to
the child's parent or legal guardian. With regard to a child who is in the physical custody of the
State Hospital, the treating psychiatrist or clinical director of the State Hospital shall be the
child's current treating mental health professional.

(b) A local mental health authority or its designee, in conjunction with the child's
current treating mental health professional, is authorized to issue a written order for the
immediate placement of a child not previously released from an order of commitment into a
more restrictive environment, if the local authority or its designee and the child's current
treating mental health professional has reason to believe that the less restrictive environment in
which the child has been placed is exacerbating the child's mental illness, or increasing the risk
of harm to self or others.

(c) The written order described in Subsection (12)(b) shall include the reasons for placement in a more restrictive environment and shall authorize any peace officer to take the child into physical custody and transport the child to a facility designated by the appropriate local mental health authority in conjunction with the child's current treating mental health professional. Prior to admission to the more restrictive environment, copies of the order shall be personally delivered to the child, the child's parent or legal guardian, the administrator of the more restrictive environment, or the administrator's designee, and the child's former treatment provider or facility.

(d) If the child has been in a less restrictive environment for more than 30 days and is aggrieved by the change to a more restrictive environment, the child or the child's representative may request a review within 30 days of the change, by a neutral and detached fact finder as described in Subsection (3). The fact finder shall determine whether:

(i) the less restrictive environment in which the child has been placed is exacerbating the child's mental illness or increasing the risk of harm to self or others; or

(ii) the less restrictive environment in which the child has been placed is not exacerbating the child's mental illness or increasing the risk of harm to self or others, in which case the fact finder shall designate that the child remain in the less restrictive environment.

(e) Nothing in this section prevents a local mental health authority or its designee, in conjunction with the child's current mental health professional, from discharging a child from commitment or from placing a child in an environment that is less restrictive than that designated by the neutral and detached fact finder.

(13) Each local mental health authority or its designee, in conjunction with the child's current treating mental health professional shall discharge any child who, in the opinion of that local authority, or its designee, and the child's current treating mental health professional, no longer meets the criteria specified in Subsection (4), except as provided by Section 78A-6-120. The local authority and the mental health professional shall assure that any further supportive services required to meet the child's needs upon release will be provided.
(14) Even though a child has been committed to the physical custody of a local mental health authority under this section, the child is still entitled to additional due process proceedings, in accordance with Section 62A-15-704, before any treatment that may affect a constitutionally protected liberty or privacy interest is administered. Those treatments include, but are not limited to, antipsychotic medication, electroshock therapy, and psychosurgery.
