40 **Cost of mandated program changes.**

41 (1) The department shall develop a waiver program in the Medicaid program to replace  
42 the fee-for-service delivery model with one or more risk-based delivery models.

43 (2) The waiver program shall:

44 (a) restructure the program's provider payment provisions to reward health care  
45 providers for delivering the most appropriate services at the lowest cost and in ways that,  
46 compared to services delivered before implementation of the waiver program, maintain or  
47 improve recipient health status;

48 (b) restructure the program's cost sharing provisions and other incentives to reward  
49 recipients for personal efforts to:

50 (i) maintain or improve their health status; and

51 (ii) use providers that deliver the most appropriate services at the lowest cost;

52 (c) identify the evidence-based practices and measures, risk adjustment methodologies,  
53 payment systems, funding sources, and other mechanisms necessary to reward providers for  
54 delivering the most appropriate services at the lowest cost, including mechanisms that:

55 (i) pay providers for packages of services delivered over entire episodes of illness

56 rather than for individual services delivered during each patient encounter; and

57 (ii) reward providers for delivering services that make the most positive contribution to  
58 a recipient's health status;

59 (d) limit total annual per-patient-per-month expenditures for services delivered through  
60 fee-for-service arrangements to total annual per-patient-per-month expenditures for services  
61 delivered through risk-based arrangements covering similar recipient populations and services;  
62 and

63 (e) except as provided in Subsection (4), limit the rate of growth in  
64 per-patient-per-month General Fund expenditures for the program to the rate of growth in  
65 General Fund expenditures for all other programs, when the rate of growth in the General Fund  
66 expenditures for all other programs is greater than zero.

67 (3) To the extent possible, the department shall operate the waiver program with the  
68 input of stakeholder groups representing those who will be affected by the waiver program.

69 (4) (a) For purposes of this Subsection (4), "mandated program change" shall be  
70 determined by the department in consultation with the Medicaid accountable care  
71 organizations, and may include a change to the state Medicaid program that is required by state  
72 or federal law, state or federal guidance, policy, or the state Medicaid plan.

73 (b) A mandated program change shall be included in the base budget for the Medicaid  
74 program for the fiscal year in which the Medicaid program adopted the mandated program  
75 change.

76 (c) The mandated program change is not subject to the limit on the rate of growth in  
77 per-patient-per-month General Fund expenditures for the program established in Subsection  
78 (2)(e), until the fiscal year following the fiscal year in which the Medicaid program adopted the  
79 mandated program change.

81 pharmacy benefit to an enrollee shall establish a unique group number, payment classification
