50 *Be it enacted by the Legislature of the state of Utah:*

51 Section 1. Section **53F-2-302** is amended to read:

52 **53F-2-302. Determination of weighted pupil units.**

53 The number of weighted pupil units in the Minimum School Program for each year is the
54 total of the units for each school district and, subject to Subsection (4), charter school, determined
55 as follows:

56 (1) The number of units is computed by adding the average daily membership of all pupils
57 of the school district or charter school attending schools, other than kindergarten and

58 self-contained classes for children with a disability.

59 (2) The number of units is computed by adding the average daily membership of all pupils
60 of the school district or charter school enrolled in kindergarten and multiplying the total by .55.

61 (a) In those school districts or charter schools that do not hold kindergarten for a full
62 nine-month term, the local school board or charter school governing board may approve a shorter
63 term of nine weeks' duration.

64 (b) Upon LEA governing board approval, the number of pupils in average daily
65 membership at the short-term kindergarten shall be counted for the purpose of determining the
66 number of units allowed in the same ratio as the number of days the short-term kindergarten is
67 held, not exceeding nine weeks, compared to the total number of days schools are held in that
68 school district or charter school in the regular school year.

69 (3) (a) The state board shall use prior year plus growth to determine average daily
70 membership in distributing money under the Minimum School Program where the distribution is
71 based on kindergarten through grade 12 ADMs or weighted pupil units.

72 (b) Under prior year plus growth, kindergarten through grade 12 average daily
73 membership for the current year is based on the actual kindergarten through grade 12 average
74 daily membership for the previous year plus an estimated percentage growth factor.

75 (c) The growth factor is the percentage increase in total average daily membership on the
76 first school day of October in the current year as compared to the total average daily membership
77 on the first school day of October of the previous year.

78 (4) In distributing funds to charter schools under this section, charter school pupils shall be
79 weighted, where applicable, as follows:

- 80 (a) .55 for kindergarten pupils;
81 (b) .9 for pupils in grades 1 through 6;
82 (c) .99 for pupils in grades 7 through 8; and
83 (d) 1.2 for pupils in grades 9 through 12.

84 (5) Notwithstanding Subsection (3)(c):

85 (a) for the 2020-2021 school year the state board may use a count of average daily
86 membership on any day or days of the current school year in 2020 to calculate a growth factor for
87 the 2020-2021 school year; and

88 (b) when calculating the growth factor as described in Subsection (5)(a), the state board

89 shall comply with all applicable federal requirements.

90 Section 2. Section **53F-2-304** is amended to read:

91 **53F-2-304. Necessarily existent small schools -- Computing additional weighted**
92 **pupil units -- Consolidation of small schools.**

93 (1) As used in this section, "necessarily existent small schools funding balance" means the
94 difference between:

95 (a) the amount appropriated for the necessarily existent small schools program in a fiscal
96 year; and

97 (b) the amount distributed to school districts for the necessarily existent small schools
98 program in the same fiscal year.

99 (2) (a) Upon application by a local school board, the state board shall, in consultation with
100 the local school board, classify schools in the school district as necessarily existent small schools,
101 in accordance with this section and state board rules adopted under Subsection (3).

102 (b) An application must be submitted to the state board before April 2, and the state
103 board must report a decision to a local school board before June 2.

104 (3) The state board shall adopt standards and make rules, in accordance with Title 63G,
105 Chapter 3, Utah Administrative Rulemaking Act, to:

106 (a) govern the approval of necessarily existent small schools consistent with principles of
107 efficiency and economy that serve the purpose of eliminating schools where consolidation is
108 feasible by participation in special school units; and

109 (b) ensure that school districts are not building secondary schools in close proximity to
110 one another where economy and efficiency would be better served by one school meeting the
111 needs of secondary students in a designated geographical area.

112 (4) The state board shall prepare and publish objective standards and guidelines for
113 determining which small schools are necessarily existent after consultation with local school
114 boards.

115 (5) (a) Additional weighted pupil units for schools classified as necessarily existent small
116 schools shall be computed using distribution formulas adopted by the state board.

117 (b) The distribution formulas establish the following maximum sizes for funding under the
118 necessarily existent small school program:

119 (i) an elementary school

160

120 (ii) a one or two-year secondary school 300

121 (iii) a three-year secondary school 450

122 (iv) a four-year secondary school 500

123 (v) a six-year secondary school 600

124 (c) An elementary school with fewer than 10 students shall receive the same add-on
125 weighted pupil units as an elementary school with 10 students.

126 (d) A secondary school with fewer than 15 students shall receive the same add-on
127 weighted pupil units as a secondary school with 15 students.

128 (e) If a necessarily existent small school generates ADM in both elementary and
129 secondary grades, the state board may divide the school's ADM between an elementary and
130 secondary distribution formula.

131 (f) The state board shall prepare and distribute an allocation table based on the
132 distribution formula to each school district.

133 (6) (a) To avoid penalizing a school district financially for consolidating the school
134 district's small schools, additional weighted pupil units may be allowed a school district each year,
135 not to exceed two years.

136 (b) The additional weighted pupil units may not exceed the difference between what the
137 school district receives for a consolidated school and what the school district would have received
138 for the small schools had the small schools not been consolidated.

139 (7) (a) The state board may allocate up to 208 weighted pupil units to support schools
140 that:

141 (i) have isolating conditions, as defined by the state board, including geographic isolation;
142 and

143 (ii) do not qualify for necessarily existent small schools funding due to formula limitations.

144 (b) The state board shall review funding allocations under this Subsection (7) at least
145 once every five calendar years.

146 (8) If the state board classifies a school as a necessarily existent small school in
147 accordance with this section, the state board shall, subject to legislative appropriation, distribute
148 small district base funding to the relevant school district in the following amounts:

149 (a) for a district with ~~[250]~~ 500 students or less, 83 additional weighted pupil units;

150 ~~[(b) for a district with 251 to 500 students, 56 additional weighted pupil units;]~~

151 ~~[(e)]~~ (b) for a district with 501 to 1,000 students, 28 additional weighted pupil units; and
152 ~~[(d)]~~ (c) for a district with 1,001 to 2,000 students, 14 additional weighted pupil units.

153 (9) Subject to legislative appropriation, the state board shall give first priority from an
154 appropriation made under this section to funding an expense approved by the state board as
155 described in Subsection 53G-6-305(3)(a).

156 (10) (a) Subject to Subsection (10)(b) and after a distribution made under Subsection (9),
157 the state board may distribute a portion of necessarily existent small schools funding:

158 (i) in accordance with a formula adopted by the state board that considers the tax effort
159 of a local school board; or

160 (ii) to isolated small schools, as identified by the state board.

161 (b) The amount distributed in accordance with Subsection (10)(a) may not exceed the
162 necessarily existent small schools fund in balance of the prior fiscal year.

163 (11) A local school board may use the money allocated under this section for
164 maintenance and operation of school programs or for other school purposes as approved by the
165 state board.

169 the average class size in kindergarten through grade 8 in the state's public schools.

170 (2) A school district or charter school shall receive an allocation for class size reduction
171 based on the school district or charter school's prior year average daily membership plus growth in
172 kindergarten through grade 8 as determined under ~~[Subsection]~~ Section 53F-2-302~~[(3)]~~ compared
173 to the total prior year average daily membership plus growth in kindergarten through grade 8
174 statewide.

175 (3) (a) An LEA governing board may use an allocation to reduce class size in any one or
176 all of the grades referred to under this section, except as otherwise provided in Subsection (3)(b).

177 (b) (i) An LEA governing board shall use 50% of an allocation to reduce class size in any
178 one or all of grades kindergarten through grade 2, with an emphasis on improving student reading
179 skills.

180 (ii) If a school district's or charter school's average class size is below 18 students in
181 kindergarten through grade 2, an LEA governing board may petition the state board for, and the

182 state board may grant, a waiver of the requirement described in Subsection (3)(b)(i).

183 (4) A school may use nontraditional innovative and creative methods to reduce class sizes
184 with this appropriation and may use part of an allocation to focus on class size reduction for
185 specific groups, such as at risk students, or for specific blocks of time during the school day.

186 (5) (a) An LEA governing board may use up to 20% of an allocation under this section
187 for capital facilities projects if such projects would help to reduce class size.

188 (b) If a school district's or charter school's student population increases by at least 5% or
189 at least 700 students from the previous school year, the LEA governing board may use up to 50%
190 of an allocation received by the school district or charter school under this section for classroom
191 construction.

192 (6) This appropriation is to supplement any other appropriation made for class size
193 reduction.

194 (7) The Legislature shall provide for an annual adjustment in the appropriation authorized
195 under this section in proportion to the increase in the number of students in the state in
196 kindergarten through grade 8.
