*Be it enacted by the Legislature of the state of Utah:*

Section 1. Section 53F-2-302 is amended to read:

**53F-2-302. Determination of weighted pupil units.**

The number of weighted pupil units in the Minimum School Program for each year is the total of the units for each school district and, subject to Subsection (4), charter school, determined as follows:

1. The number of units is computed by adding the average daily membership of all pupils of the school district or charter school attending schools, other than kindergarten and
58 self-contained classes for children with a disability.
59
(2) The number of units is computed by adding the average daily membership of all pupils
60 of the school district or charter school enrolled in kindergarten and multiplying the total by .55.
61
(a) In those school districts or charter schools that do not hold kindergarten for a full
62 nine-month term, the local school board or charter school governing board may approve a shorter
63 term of nine weeks' duration.
64
(b) Upon LEA governing board approval, the number of pupils in average daily
65 membership at the short-term kindergarten shall be counted for the purpose of determining the
66 number of units allowed in the same ratio as the number of days the short-term kindergarten is
67 held, not exceeding nine weeks, compared to the total number of days schools are held in that
68 school district or charter school in the regular school year.
69
(3) (a) The state board shall use prior year plus growth to determine average daily
70 membership in distributing money under the Minimum School Program where the distribution is
71 based on kindergarten through grade 12 ADMs or weighted pupil units.
72
(b) Under prior year plus growth, kindergarten through grade 12 average daily
73 membership for the current year is based on the actual kindergarten through grade 12 average
74 daily membership for the previous year plus an estimated percentage growth factor.
75
(c) The growth factor is the percentage increase in total average daily membership on the
76 first school day of October in the current year as compared to the total average daily membership
77 on the first school day of October of the previous year.
78
(4) In distributing funds to charter schools under this section, charter school pupils shall be
79 weighted, where applicable, as follows:
80
(a) .55 for kindergarten pupils;
81
(b) .9 for pupils in grades 1 through 6;
82
(c) .99 for pupils in grades 7 through 8; and
83
(d) 1.2 for pupils in grades 9 through 12.
84
(5) Notwithstanding Subsection (3)(c):
85
(a) for the 2020-2021 school year the state board may use a count of average daily
86 membership on any day or days of the current school year in 2020 to calculate a growth factor for
87 the 2020-2021 school year; and
88
(b) when calculating the growth factor as described in Subsection (5)(a), the state board
shall comply with all applicable federal requirements.

Section 2. Section 53F-2-304 is amended to read:

53F-2-304. Necessarily existent small schools -- Computing additional weighted pupil units -- Consolidation of small schools.

(1) As used in this section, "necessarily existent small schools funding balance" means the difference between:

(a) the amount appropriated for the necessarily existent small schools program in a fiscal year; and

(b) the amount distributed to school districts for the necessarily existent small schools program in the same fiscal year.

(2) (a) Upon application by a local school board, the state board shall, in consultation with the local school board, classify schools in the school district as necessarily existent small schools, in accordance with this section and state board rules adopted under Subsection (3).

(b) An application must be submitted to the state board before April 2, and the state board must report a decision to a local school board before June 2.

(3) The state board shall adopt standards and make rules, in accordance with Title 63G, Chapter 3, Utah Administrative Rulemaking Act, to:

(a) govern the approval of necessarily existent small schools consistent with principles of efficiency and economy that serve the purpose of eliminating schools where consolidation is feasible by participation in special school units; and

(b) ensure that school districts are not building secondary schools in close proximity to one another where economy and efficiency would be better served by one school meeting the needs of secondary students in a designated geographical area.

(4) The state board shall prepare and publish objective standards and guidelines for determining which small schools are necessarily existent after consultation with local school boards.

(5) (a) Additional weighted pupil units for schools classified as necessarily existent small schools shall be computed using distribution formulas adopted by the state board.

(b) The distribution formulas establish the following maximum sizes for funding under the necessarily existent small school program:

(i) an elementary school
(ii) a one or two-year secondary school 300
(iii) a three-year secondary school 450
(iv) a four-year secondary school 500
(v) a six-year secondary school 600
(c) An elementary school with fewer than 10 students shall receive the same add-on weighted pupil units as an elementary school with 10 students.
(d) A secondary school with fewer than 15 students shall receive the same add-on weighted pupil units as a secondary school with 15 students.
(e) If a necessarily existent small school generates ADM in both elementary and secondary grades, the state board may divide the school's ADM between an elementary and secondary distribution formula.
(f) The state board shall prepare and distribute an allocation table based on the distribution formula to each school district.
(6) (a) To avoid penalizing a school district financially for consolidating the school district's small schools, additional weighted pupil units may be allowed a school district each year, not to exceed two years.
(b) The additional weighted pupil units may not exceed the difference between what the school district receives for a consolidated school and what the school district would have received for the small schools had the small schools not been consolidated.
(7) (a) The state board may allocate up to 208 weighted pupil units to support schools that:
(i) have isolating conditions, as defined by the state board, including geographic isolation;
and
(ii) do not qualify for necessarily existent small schools funding due to formula limitations.

(8) If the state board classifies a school as a necessarily existent small school in accordance with this section, the state board shall, subject to legislative appropriation, distribute small district base funding to the relevant school district in the following amounts:
(a) for a district with [250] 500 students or less, 83 additional weighted pupil units;
(b) for a district with 251 to 500 students, 56 additional weighted pupil units;]

[(d) (c)] for a district with 1,001 to 2,000 students, 14 additional weighted pupil units.

(9) Subject to legislative appropriation, the state board shall give first priority from an
appropriation made under this section to funding an expense approved by the state board as
described in Subsection 53G-6-305(3)(a).

(10) (a) Subject to Subsection (10)(b) and after a distribution made under Subsection (9),
the state board may distribute a portion of necessarily existent small schools funding:
(i) in accordance with a formula adopted by the state board that considers the tax effort
of a local school board; or
(ii) to isolated small schools, as identified by the state board.
(b) The amount distributed in accordance with Subsection (10)(a) may not exceed the
necessarily existent small schools fund in balance of the prior fiscal year.

(11) A local school board may use the money allocated under this section for
maintenance and operation of school programs or for other school purposes as approved by the
state board.

Section 3. Section 53F-2-312 is amended to read:

the average class size in kindergarten through grade 8 in the state's public schools.
(2) A school district or charter school shall receive an allocation for class size reduction
based on the school district or charter school's prior year average daily membership plus growth in
