19 *Be it resolved by the Legislature of the state of Utah:*

20 WHEREAS, the governor has recognized, and the facts demonstrate, that extreme

22 WHEREAS, these drought conditions are expected to persist, increasing and prolonging
23 the threat of wildfire across the state and adversely impacting agribusiness and livestock
24 production, and wildlife and natural habitats;

25 WHEREAS, the Legislature modified the procedures for declaring and extending a
26 state of emergency by passing S.B. 195 during the 2021 General Session, which took effect on
27 May 5, 2021;

28 WHEREAS, on May 13, 2021, the governor issued Executive Order 2021-13 declaring
29 a state of emergency due to drought conditions;

30 WHEREAS, Executive Order 2021-13 activated the state Emergency Operations Plan,
31 the state Drought Response Plan, and the state Drought Response Committee;

33 Drought Response Committee identify and recommend actions to meet needs caused by the
34 drought;

35 WHEREAS, the state Drought Response Plan calls for the Drought Response
36 Committee to make recommendations to the governor about how to meet unmet needs caused
37 by the drought and to assemble data needed to support a request by the governor for federal
38 drought assistance;

39 WHEREAS, under Subsection 53-2a-206(2)(b), the Legislature may extend, by joint
40 resolution and for a designated time period, a state of emergency declared by executive order of
41 the governor;

43 governor's emergency powers for a state of emergency that is extended by a joint resolution;

44 WHEREAS, pursuant to Subsection 53-2a-204(4)(c), the Legislature finds that
45 emergency drought conditions in the state warrant certain executive actions, but that the

47 drought conditions present at the time of this joint resolution:

48 ▶ the emergency powers described in Subsections 53-2a-204(1)(c) through (f), (h),
49 (i), and (j); and

50 ▶ the emergency power described in Subsection 53-2a-209(4);

52 emergency warrants the continuation of the governor's emergency powers except for those
53 emergency powers enumerated in the preceding paragraph;

54 WHEREAS, under Subsection 53-2a-206(4)(b), the Legislature may limit or restrict the
55 emergency powers of the Division of Emergency Management for a state of emergency that is
56 extended by a joint resolution;

57 WHEREAS, pursuant to Subsection 53-2a-206(4)(c), the Legislature finds that
58 emergency drought conditions in the state at the time of this joint resolution warrant the

59 limitation or restriction of the Division of Emergency Management's exercise of emergency
60 powers described in Section 53-2a-104;

61 WHEREAS, pursuant to Subsection 53-2a-206(4)(c), the Legislature finds that before
62 the Division of Emergency Management may exercise any emergency power described in
63 Section 53-2a-104 under the state of emergency due to drought conditions, the Division of
64 Emergency Management should obtain the governor's approval;

65 WHEREAS, under Subsection 53-2a-206(4)(b), the Legislature may limit or restrict the
66 emergency powers of a chief executive officer of a political subdivision for a state of
67 emergency that is extended by a joint resolution;

68 WHEREAS, pursuant to Subsection 53-2a-206(4)(c), the Legislature finds that
69 emergency drought conditions in the state at the time of this joint resolution warrant the
70 limitation or restriction of the emergency powers described in Section 53-2a-205 for a chief
71 executive officer of a local political subdivision;

72 WHEREAS, pursuant to Subsection 53-2a-206(4)(c), the Legislature finds that the chief
73 executive officer of a local political subdivision should not be authorized to exercise the
74 emergency powers described in Section 53-2a-205 under the state of emergency due to drought
75 conditions unless a local emergency for drought conditions is declared for that local political
76 subdivision under Section 53-2a-208; and
