2524 Risk Management - Property

2525 Property Coverage Premium Methodology

2526 Premium for Existing Insured Building and Contents See formula

2527 The building/structure values are professionally evaluated every three to
2528 five years by an outside contractor through an agency contract. Values during
2529 interim years are updated by applying annual trending data supplied by the
2530 contractor for buildings that have been previously appraised. Content values
2531 are provided annually by the insured entities. Exposure data (asset values) and
2532 loss history are provided to an outside actuary, who provides a proposal for
2533 rates.

2534 Premium for Newly Insured Buildings

2535 Buildings valued in excess of \$25 million reported to broker, who obtains
2536 rate from excess insurance carrier. Initial premium cost is passed through to
2537 covered entity.

2538 Property Premiums: Charter Schools
