46 **consumer protection law.**

47 (1) As used in this section:

49 (i) is trained on data;

50 (ii) interacts with a person using text, audio, or visual communication; and

51 (iii) generates non-scripted outputs similar to outputs created by a human, with limited
52 or no human oversight.

53 (b) "License" means a state-granted authorization for a person to engage in a specified
54 occupation:

56 (ii) where state law requires the authorization before the person may lawfully engage in
57 the occupation for compensation.

58 (c) "Regulated occupation" means an occupation regulated by the Department of

59 Commerce that requires a person to obtain a license or state certification to practice the
60 occupation.

61 (d) "State certification" means a state-granted authorization given to a person to use the
62 term "state certified" as part of a designated title related to engaging in a specified occupation:

63 (i) based on the person meeting personal qualifications established under state law; and

64 (ii) where state law prohibits a noncertified person from using the term "state certified"
65 as part of a designated title but does not otherwise prohibit a noncertified person from engaging
66 in the occupation for compensation.

67 (2) It is not a defense to the violation of any statute administered and enforced by the
68 division, as described in Section 13-2-1, that generative artificial intelligence:

69 (a) made the violative statement;

70 (b) undertook the violative act; or

71 (c) was used in furtherance of the violation.

72 (3) A person who uses, prompts, or otherwise causes generative artificial intelligence
73 to interact with a person in connection with any act administered and enforced by the division,
74 as described in Section 13-2-1, shall clearly and conspicuously disclose to the person with
75 whom the generative artificial intelligence interacts, if asked or prompted by the person, that
76 the person is interacting with generative artificial intelligence and not a human.

77 (4) (a) A person who provides the services of a regulated occupation shall prominently
78 disclose when a person is interacting with a generative artificial intelligence in the provision of
79 regulated services.

80 (b) Nothing in this section permits a person to provide the services of a regulated
81 occupation through generative artificial intelligence without meeting the requirements of the
82 regulated occupation.

83 (5) A disclosure described Subsection (4)(a) shall be provided:

84 (a) verbally at the start of an oral exchange or conversation; and
